

Inner Peace to World Peace

Imagine a place so nice...

Truly seeming like Paradise,

Where the essence of hope and joy is in the air,

And people's eyes are filled with loving care.

I say, Make Peace, Not War.

Conflicts are not worth living for.

Life is much shorter than it seems,

Take a step ahead, fulfill your dreams.

We must remember to make peace,

And then our enemies will tend to cease.

When people will be educated,

Violence shall be eradicated.

Communicate with due respect,

To change people's aspect,

And there will definitely come a time,

With no terrorism and crime.

So, calm down, forget the mess;

Smile at others, relieve their stress.

Human beings were always meant to get along.

A United World, that's where we belong!

"But, where is tranquility?" We have no clue...

The truth is... It's all inside of you!

*Tranquillity: It exists only in our heart,
And it's what keeps the world from tearing apart.*

I believe that, 'Our Peace of Mind',

Is actually - One of a kind.

So, if you're still searching for peace, in the world you're in.....

It's high time you looked within.

- Meera Wadher
